ABOUT ME

Motivated and self-driven MERN Stack Developer with a strong passion for building modern web applications and continuously improving my technical skills. I started my journey in Frontend Development and expanded into the MERN stack to gain a deeper understanding of full-stack application development. I enjoy building real-world projects, solving problems, and staying up to date with the latest technologies and industry trends. I also leverage AI prompt engineering to enhance learning, research, and development productivity.

SKILLS & LANGUAGES

Languages & Markup

HTML5, CSS3, JavaScript (ES6+), TypeScript

Frontend

React.js, Redux Toolkit (incl. createAsyncThunk), TanStack Query (React Query), Shadcn, Chart.js, Tailwind CSS, Bootstrap, SAAS

Backend

Node.js, Express.js, RESTful APIs, JWT Authentication

Tools & Utilities

Git & GitHub, Auth0, Cloudinary, Postman, Vite, Axios / AxiosInstance, Firebase, Stripe

Database & Backend

MongoDB, Mongoose

Other Skills

Responsive Web Design, Authentication & Authorization, API Integration, State Management, OOP, Form Handling, Search, Filtering & Pagination, Order Management, Prompt Engineering (AI)

Professional Skills

Teamwork, Strong communication skills, Highly motivated, Problem-solving skills, Microsoft Excel

PROJECTS

Food Ordering Platform (MERN Stack):

- Built with MongoDB, Express.js, React, Node.js, TypeScript, Tailwind CSS, TanStack Query, Auth0, Cloudinary, and Stripe.
- **Features:** Secure authentication and authorization, restaurant management dashboard, image uploads, restaurant search with filtering, sorting and pagination, shopping cart, Stripe payment integration, order management, customer order tracking, responsive design, and RESTful API development.

Tracker & Finance Dashboard (MERN Stack):

- Built with MongoDB, Express.js, React, Node.js, TypeScript, Tailwind CSS, TanStack Query, and Chart.js.
- **Features:** Income and expense management, category-based transaction tracking, interactive financial dashboard, daily, weekly, and monthly reports, data visualization with charts, secure RESTful APIs, responsive design, and full-stack CRUD operations.

E-Commerce Website – Electro Store (Frontend):

- Built with React JS, TypeScript, Tailwind CSS, Redux Toolkit, React Query, Axios Instance, and Firebase Auth.
- Features: Product filtering by category, dark/light mode, cart management, and responsive design.

Movie Website – Movieo (Frontend):

- Developed using React JS, Redux Toolkit, Tailwind CSS, and Firebase Auth.
- Features: Dynamic movie categories, advanced search, pagination, and an interactive UI.

WORK EXPERIENCE

Backend Developer Freelancer	2025 – Present
Frontend Developer Freelancer.com	2024 – Present
German Customer Service Provided customer support in both German and English, assisting customers with inquiries, resolving issues, and ensuring a high level of customer satisfaction while working at Concentrix.	01/2023 – Present Cairo, Egypt

EDUCATION

Bachelor's Degree Helwan University Art Education	2013 – 2018 Cairo, Egypt
Helwan University During my studies, I focused on improving my skills in a field I have been passionate about from an early stage. I developed strong communication skills and performed well academically, which led me to pursue Customer Service and build a solid professional foundation.	2013 – 2018 Cairo, Egypt
German Language Certification Goethe / DFA After graduating, I started learning German and obtained my B1 certificate from Goethe and B2 from a recognized institute in Egypt (DFA). My passion for learning the language helped me quickly move into German-speaking customer service, where I applied my skills and continued to grow.	Egypt

COURSES & CERTIFICATIONS

Software Development (Mern Stack) GoMyCode
German Language B1 & B2 Goethe Institute

LANGUAGES

German B2	English B2
Arabic Native
